Marker for the bridge

Montebello Bridge not a WPA project. It is WPA-era structure. Can still do a marker based on that. Need to speak to Craig about verbiage for the marker. Bill E. recommended when it was built, who built it, etc. would be sufficient for the marker. Matt: original bridge stood here since the 1930s, was impacted by Hurricane Irene and replaced.

Re: transfer of ownership of the remaining stone from the Rockland County Highway department. A letter or a phone call has to come from the Village requesting it to say . The other date stone is housed in Village Hall garage.
